

# Security Safety Strap

## Armature Plate Safety Strap

Enhanced safety solutions

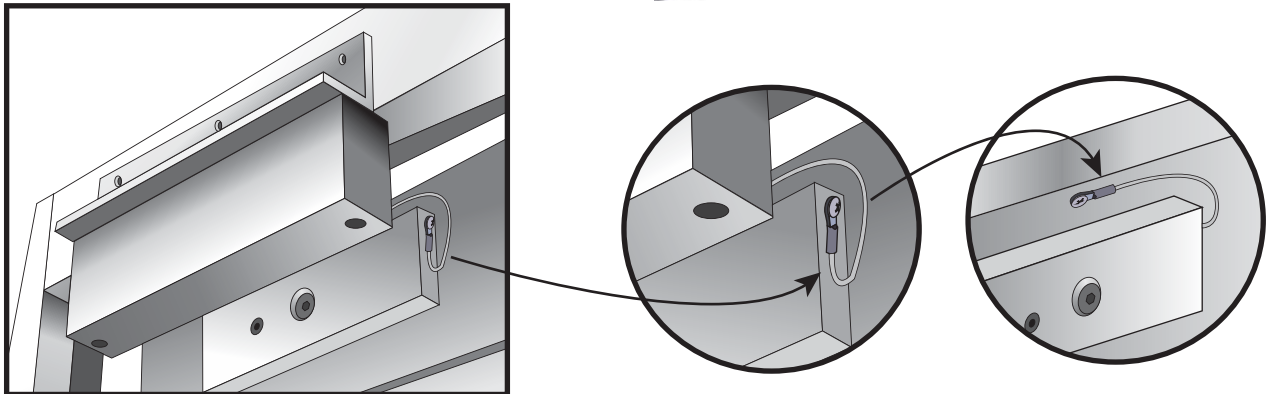

300AP-SSK

500AP-SSK

SSK-1

Safety strap for securing the armature plate to the door in the unlikely event of armature plate becoming detached. The safety strap is compatible with GEM 600lbs and 1200lbs range armature plates. It is 150mm long with securing loops for screws at both ends.

### Standard Features

- 150 mm steel cable
- Comes with a Nylok screw (armature side) and a self tapping screw (door side)
